

# XIX JORNADA DE BIOLOGIA DE LA REPRODUCCIÓ

Organization:

Section of the Biologia de la Reproducció from the Societat Catalana de Biologia

Coordinators of the event:

Rafael Oliva, Judit Castillo, Meritxell Jodar (Grup de Biologia Molecular de la Reproducció i el Desenvolupament, IDIBAPS, Clínic Barcelona i Facultat de Medicina i Ciències de la Salut, Universitat de Barcelona) i Ignasi Roig (Grup de Integritat Genòmica i Biologia reproductiva, Departament de Biologia Cel·lular, de Fisiologia i d'Immunologia, Universitat Autònoma de Barcelona)

The aim of the Symposium, held every two years, is to put in contact the various groups that perform research on topics related to animal and human reproductive biology, and to share and discuss the results of the research they carry out.

## DATE AND PLACE

**Thursday, June 12, 2025.**

Sala Prat de la Riba, Institut d'Estudis Catalans, Carrer del Carme, 47, Barcelona

## STRUCTURE AND PROGRAM

The symposium will consist of several thematic sessions at which the participants' communications will be presented. Authors will have about ten minutes to present their works (the exact time will be confirmed once the definitive program has been established).

## REGISTRATION

Registration is required for attendance at the symposium (commissions or not) and must be formalized via the website <https://scb.iec.cat/xix-jornada-de-biologia-de-la-reproduccio/>

**People submitting communications must register before March 12, 2025**, and those who do not submit communications will be able to do so by **May 12, 2025**. The number of places is limited.

## FEES

10€ for the members of the SCB, 35€ for non-member students, and 60€ for the rest.

## SUBMISSION OF THE PRESENTATION TEXT

Participants who wish to submit communications should send the text of the communication in electronic format (word file), **by March 12, 2025**, to the Secretariat of the SCB (scb@iec.cat).

You can choose to send **either** an **abstract** (between 150 and 350 words), **or** a **short structured-article** with a minimum of 2 and a maximum of 7 pages. Regardless of the chosen option, it is important to use the word template that can be downloaded from the web. Both short articles and summaries will be published in the same volume in print (which will be distributed as a hard copy on the day of the event) and in pdf format (which will remain with as free access in the SCB website). Presentation in short article format is encouraged, as the volume will be published with ISBN, and thus it will have credit as a book. The general formatting instructions for these two options are as follows:

### Option 1: Communication Summary:

Use the Word template that can be downloaded from the website (<https://scb.iec.cat/xix-jornada-de-biologia-de-la-reproduccio/>). Font in Times New Roman style and 10 size. Top, bottom, left and right margins of 2.5 cm. Title in uppercase. Indicate the affiliation of the different authors with numbers as shown in the attached template. Indicate corresponding author with an asterisk. The text of the summary is preferably in English with an extension of 150-350 words. In addition, if the summary has been prepared in Catalan or Spanish, it is required to include a version translated into English.

### Option 2: Short structured article (it can be either a revision or an original article):

Use the Word template that can be downloaded from the website (<https://scb.iec.cat/xix-jornada-de-biologia-de-la-reproduccio/>). Font in Times New Roman style and 10 size. Top, bottom, left and right margins of 2.5 cm. Title in uppercase. Indicate the affiliation of the different authors with numbers as shown in the attached template. Indicate corresponding author with an asterisk. The language of the article will preferably be in English with an extension between 2 and 7 pages, it may include images and tables. Use formatting according to the attached template with the following sections: Introduction, Material and Methods, Results and Discussion (optional as a single paragraph or in

two separate paragraphs), Conclusions (optional paragraph) and Acknowledgements (indicating funding and acknowledgements). The bibliography must be added at the end in alphabetical order and must include author names (up to 3 authors, all authors should be indicated; if there are more than 3 authors, quote the first one followed by "et al."), article title, abbreviated journal name, volume and page range (see word template for more format details).

Once you have prepared the summary or the short article, you must send it by email to [scb@iec.cat](mailto:scb@iec.cat).

Important!: only WORD format is accepted, in order to allow paging and integration into the book of the event. Short summaries or articles in pdf format will not be accepted, nor will those that do not follow the general format of the corresponding template.

**The templates for the preparation of the communications texts can be downloaded from the website**
